

# Caprone – Protected Aniline Leather

Caprone leather has a consistent hand that makes it a standout product. With 58 colors available it is hard not to please with this leather. Caprone hides are dyed for color and then receive a compatible topcoat that adds color consistency and durability. Caprone has a soft and supple hand yet is great for family rooms and high traffic areas. Caprone can be used with any style - even slipcover looks, skirted pieces, and relaxed-line designs. With care, Caprone will wear consistently over time and with use.

# Masquerade – Pure Aniline Leather

Considered to be a pure aniline with enhancement, Masquerade has color consistency within a lot and offers a smooth and lightly protected surface. Elegant yet durable, Masquerade is an excellent choice for any application that requires more durability than a traditional pure aniline. Masquerade hides are dyed for color and then a specific application is applied to the leather that enables Masquerade to have a soft touch with better color consistency than traditional anilines. Masquerade also has a light savage effect that adds depth to the leather. Expect healed scars, scratches, neck and belly wrinkles to be apparent throughout these hides. Color variation should be expected from lot to lot.

# Gaucholin III ® - Premium Pure Aniline Leather

Gaucholin III is a South German pure aniline leather which is a "nonpareil" variety (meaning "no equal"). This is the most expensive pure aniline due to its consistently high quality. This product was invented to satisfy the most discerning of leather customers. Dyed for color using a true "A" selection of raw material, Gaucholin III is one of the finest leather you will ever see. After dyeing, a slight savage effect is added to give the leather a mottled effect which adds depth to the leather. A water and stain resistance chemical is added to give the leather protection. Even though this is a premium selection, natural features should be expected and appreciated such as healed scars, scratches, neck and belly wrinkles. These are hallmarks of an aniline and register this leather a pure aniline. Gaucholin III will fade with prolonged exposure to direct sunlight and will develop a patina over time and with use.

**PLEASE NOTE** - Gaucholin III is a premium leather which requires an upcharge. Please call for a quote.
