## LOLLING SIDE TABLE

EXT • 19" H X 29" W x 19" D

The Lolling Side Table is designed in the style of our popular Lolling Chair, which took inspiration from a ubiquitous post-World War II porch chair. The table utilizes traditional joinery, with wedged through tenons forming a visible junction between the tabletop and each of its four gently curved legs. Made of sustainably harvested North American hardwood, each table features a solid, matched-grain top, with a matching lower shelf for discreet storage.
