HARTFORD DRESSER - VERTICAL

H-DV • 48" H X 30" W X 18" D

A follow up to the previous launch of Hartford living collection, we've taken the salient elements from the Hartford media case and reworked them into a dresser form; both vertical in orientation and horizontal. Like the living collection, the intention of the design is to embody and magnify all things Thos. Moser; a dedication to functionally driven objects, formal simplicity, the characteristic elimination of ornament, use and celebration of traditional materials and woodworking techniques -all with an emphasis on craftsmanship.
