## EASTWARD CHAIR

ES18 • 31"H X 19"W X 20"D

When we design and build furniture at Thos. Moser, we subscribe to the philosophy that there should be no function without beauty – and no beauty without function. This iteration of the Eastward Chair provides a smaller footprint while still maintaining an abundant beauty and purposeful utility. Crafted with carefully sprung spindles and sculpted seats, the Eastward Studio Chair recall the Shaker tradition, with thoughtful Moser updates that eliminate spreaders and reduce overall mass.
